Re: Goalie Equipment Exemption Form

At the request of the CLA's Board of Director the CLA will produce a revised Goalkeeper Equipment Exemption Certificate, hence changing the process with which we informed the athletes' parents, local association's president and Member Associations (MA) of a successful request for goalkeeper equipment exemption. Currently, this process is done by returning the completed goalkeeper equipment exemption form signed by the Safety & Equipment Committee Chair and on which the CLA gold seal is applied to athletes' parents, local association's president and MA.

Making this minor adjustment will allow us to remove personal information from a document that may be required to be attached to the game sheet and seen by people who should not have access to such sensitive information. Be reassured that the request for goalkeeper equipment exemption form and approval process are not altered in anyway. The CLA is simply taking this extra step to respect and protect the privacy of the members.

Please note that this change is effective immediately and that all athletes who have had their request for goalkeeper equipment exemption form approved for the 2015 season, will receive this new certificate by the end of the week.
